Traffic Heavy at Burk.

I spent one night in Wichita Falts and we drove out to Burkburnett field the next morning. The feeld is drilled up in Stown lots. From a distance it tooks like a dense forest Arriving in the place one must drive his "im lizze" slowly because of the myriads of tracks. Impers, gaywires, workings, and so on. The destricks are set as close together as is possible and a bad fire would wire the place off the earth. At the west edge of the town is the famous Gillilland lease for which the Gilliland Oil company of Tilsa gave \$12.00 and when they bought this lease a very short time aga there were six wells on a producing \$250 of oil. They are now drilling if new wells at one time. They employ nearly 400 men of this lease and it is the birstest place invasinable. The labor is fed to a larg meas half and there is a row of bunk houses over a half nile long used for steeping quarters.

From Burkbornell, we drove on
